

Pension Estimator Update

The Pension Estimator has been updated to include earnings through Dec. 31, 2011. In order to access the pension estimator, go to InSite, Human Resources and E-Applications. Log-on by entering your UserID and your PeopleSoft password. Go to Self-Service, Benefits, Pension Estimates. (Note that the Employer Paid Survivor Benefit at Retirement and the Income Leveling amounts may not be accurate in the Estimator based on the announced changes to the Pension Plan, effective 1/1/2012. The Pension Estimator is being replaced with an updated and more detailed pension estimating tool that will be available in the next few months.)
